the pipe.

### Mini Sewer Rod Kit

Stock Code	Description
EPTDRSUM	Mini Drain Clearing Set c/w 8 Rods, 2 Tools

Package Type	Width cm	Height cm	List Price €
Header	12.5	110	42.50

## Drain Clearing Equipment

Guides rods around difficult  
bends and removes minor  
blockages by pushing  
material clear.

Pierces blockages such as  
paper or rags and the  
obstruction is drawn back to  
clear the pipe.

Glides over small obstructions  
and drops into vertical scraping  
position to allow offending  
material to be dragged back  
towards the operator.

Builds up pressure of water  
which forces obstruction clear.

## Drain Clearing Wire

Stock Code	Length		
EP15DW	15ft (4.5m)		
Package Type	Width cm	Height cm	List Price €
Card	18	25.5	7.00

A simple but effective method of clearing drains. The top of the wire which features a "screw head" is introduced into the pipework via a cleaning eye, trap or waste outlet. When it reaches the blockage, it pierces it. The blockage can then be drawn back to the operator.

## Drain Clearing Equipment

## Drain Cleaning Tool

Stock Code	Description
EP15CA	15ft Drain Cleaning Tool

Package Type	Width cm	Height cm	List Price €
Card	25.5	37	14.50

Provides an easy way of removing "gunk" which collects in the waste outlets and traps of Basins, Baths, Sinks and Shower Trays.

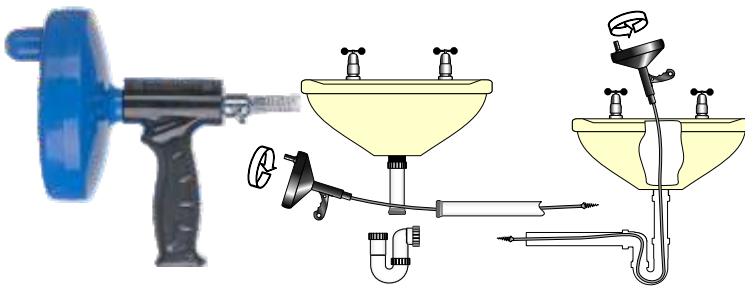

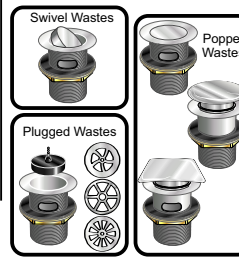

## Drain Stick

Stock Code	Description
EPDS	Drain Clearing Tool

Package Type	Width cm	Height cm	List Price €
Card	5	50	4.00

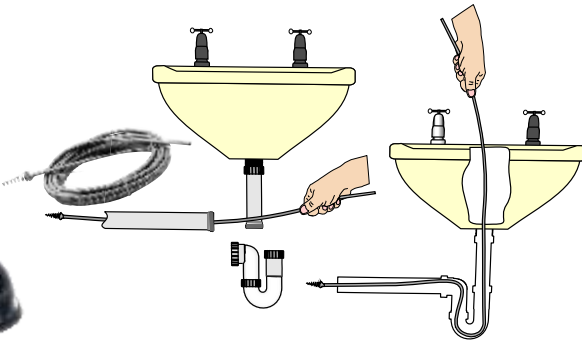

The Drain Stick will work with all the following waste outlet types:

## Sink Plunger & Drain Wire

Stock Code	Description
EPPL415DW	Sink Plunger & Drain Wire Set

Package Type	Width cm	Height cm	List Price €
Box	12	40	11.50

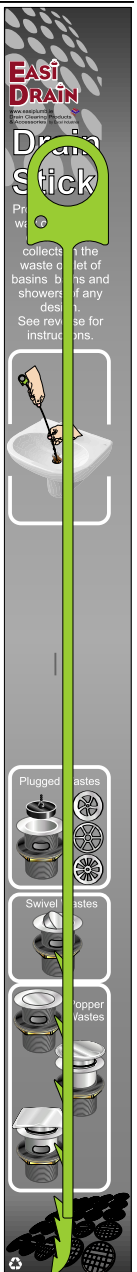

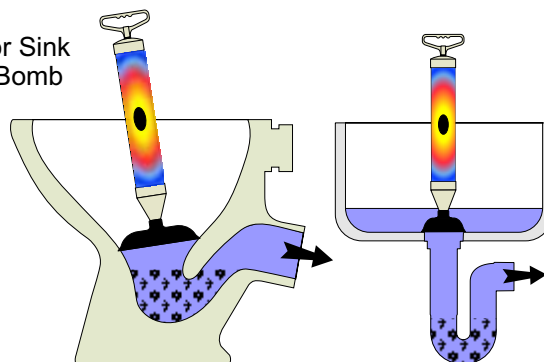

## Drain Bomb

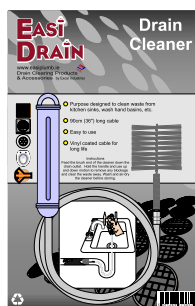

Stock Code	Description
EPPUM	Suction Pump for Sink and Bath Drain Bomb

Package Type	Width cm	Height cm	List Price €
Box	12	40	12.00

Easy to use 2 way pump action. Includes attachments for clearing blockages in sinks, baths and toilets.

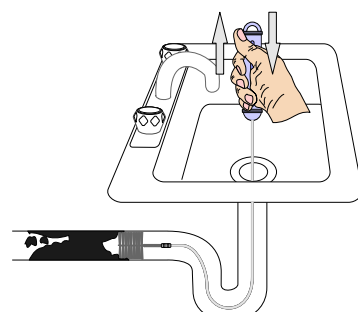

## Drain Cleaner with Brush

Stock Code	Description	Package Type	Width cm	Height cm	List Price €
EP3DC	Drain Cleaner	Card	16	25.5	7.00

5 391269 775057 90cm (36") long cable

Purpose designed to clean waste from kitchen sinks, was hand basins, etc.

## Drain Sweep

Stock Code

EPDSWEEP

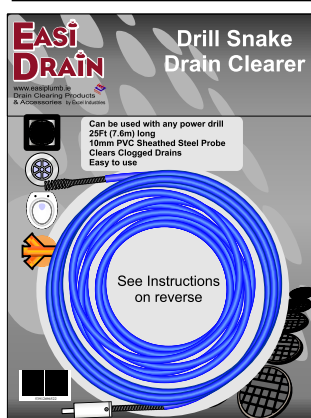

Package Type	Width cm	Height cm	List Price €
Card	21	26.5	14.00

5 391269 775095

### Instructions

Remove any traps or elbows. Uncoil and attach to drill chuck. Leave 1/8th" (3mm) of connector exposed. Feed the corkscrew head into the drain until blockage is reached. Power the drill at low speed until blockage has been cleared. Remove snake and air dry and oil before storing.

## Drill Snake Drain Cleaner

Turn by power drill

## Toilet Cleaning Tool

- Protective vinyl sleeve prevents bowl scratching
- Unclogs toilet drain
- Safe and easy to use
- Saves time and money
- Works where chemicals and plungers fail

Stock Code  
EP3TA

Description

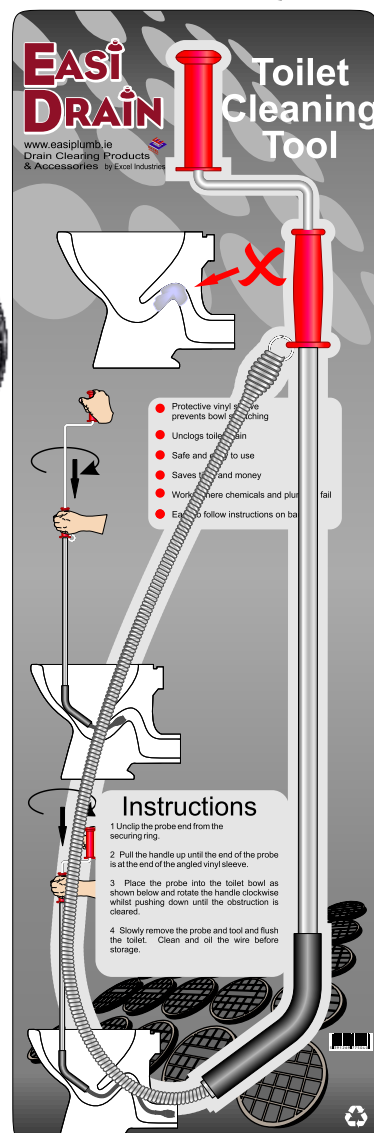

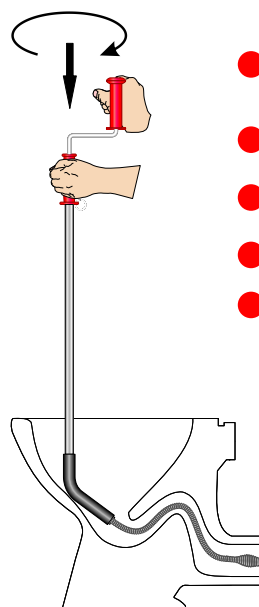

Toilet Cleaning Auger 6mm x 900mm

Package Type	Width cm	Height cm	List Price €
Box	35	108	30.00

5 391269 775040

### Instructions

- 1 Unclip the probe end from the securing ring.
- 2 Pull the handle up until the end of the probe is at the end of the angled vinyl sleeve.
- 3 Place the probe into the toilet bowl as shown below and rotate the handle clockwise whilst pushing down until obstruction is cleared.
- 4 Slowly remove the probe and tool and flush the toilet. Clean and oil the wire before storage.

## 1 Litre Biozyme Ecodrain

Stock Code	Description
ECOD1L	1Litre bottle
Package Type	List Price €
Loose	8.68

### A Concentrated Biological Septic Tank & Drain Line Maintenance and Performance Treatment

Restores and maintains biological action to keep all kinds of Septic Tanks functioning properly. Natural and fast elimination of organic solids in pipes and drains.

Excellent perfumed sanitising and cleansing formulation. Non toxic, non corrosive and environmentally friendly. 1 litre - sufficient for 8 week dosing cycle. Graduated measure on side of container for ease of application. Comprehensive instructions and recommendations included.

- Non-toxic
- Maintains clean drains
- Easy to store
- Maintains clean septic tanks
- Easy to use
- Graduated Dosing Scale on side

## 1.5 Litre Biozyme Ecodrain

Stock Code	Description
● EPECO1	1.5 Litre bottle
Package Type	List Price €
Loose	8.68

Stock Code	Description
ECO1	1.5 Litre bottle
Package Type	List Price €
Loose	8.68

- Maintains pleasant odour
- Eco friendly

## Drainex

Stock Code	Description		
EPDRAINEX	1 Litre Drain Cleaner		
Package Type	Width cm	Height cm	List Price €
Bottle	14	25	6.00

- Alkaline Based Drain Cleaner

- 1.Add contents directly into plug hole, drain or gully.
- 2.Leave for between 20 minutes to 1 hour, depending on the degree of blockage.

- 3.Flush area with plenty amounts of water after use.

## 1 Kg Bottle of Caustic Soda

Stock Code		Description	
CSODA1		1Kg	
Package Type	Width cm	Height cm	List Price €
Bottle	14	25	6.96

Add to cold water, and stir slowly and gently with a wooden stick until the pearls have fully dissolved. Swirl the liquid constantly to prevent "hot spots" developing. **Note** – The solution will heat up.

### When Unblocking Drains:

Pour the solution slowly down the drain. Leave for about 30 minutes and then flush with hot or boiling water. Repeat treatment may be needed for stubborn blockages. In the event that you are not successful in unblocking the drain, it may be that the obstruction is too big and dense to be broken down with Caustic Soda solution. In this case it will be necessary to physically remove the offending matter, for which Excel Industries offer a comprehensive range of Drain Clearing equipment specifically designed for this purpose.

## Biozyme Sachets

### A Biological & Ecological Drain, Grease Trap & Septic Tank Cleanser

Stock Code	Description
BIOMINI	Mini Sachets 12 x 20gr
Package Type	List Price €
Box	13.86

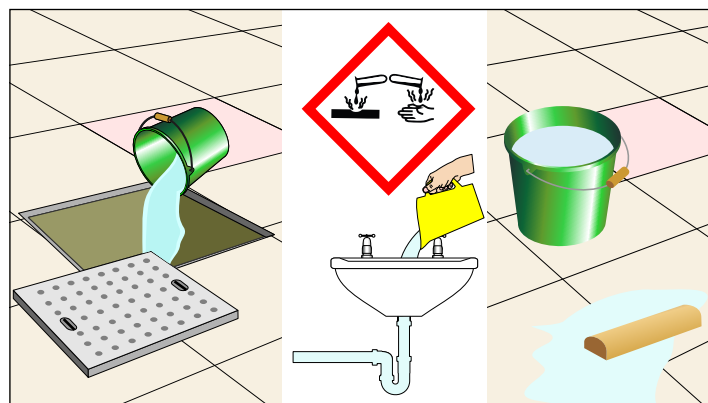

- Non-toxic
- Maintains clean drains
- Easy to store
- Maintains clean septic tanks
- Easy to use
- Graduated Dosing Scale on side
- Maintains pleasant odour
- Eco friendly

The natural process of biological decomposition has kept our environment in perfect equilibrium since the beginning of time. It's nature's way of recycling and renewing itself through a steady decomposition of organic waste matter and its conversion to simple, essential substances. Conversion of leaves back into fertile soil is one example of this process. This ongoing process is the work of trillions of tiny, naturally occurring, living micro-organisms that use organic waste as their food and energy source. Biozyme harnesses this natural process to meet today's need for cleaning, odour control, and waste processing without the use of potentially harmful chemicals.

**Septic Systems** can be overloaded by cleaning chemicals, antibiotics, or by intermittent use. Biozyme Sachets restore effective activity in septic systems to reduce bottom solids and surface scum, eliminating the need for excessive pumping. Treatment also reduces odours by degrading malodorous volatile fatty acids released by incomplete digestion. Biozyme technology protects drainage areas by stimulating biological activity to lessen organic liquids and solids in the effluent stream.

## 500g Bottle of Caustic Soda

Stock Code		Description	
CSODA		500g	
Package Type	Width cm	Height cm	List Price €
Bottle	14	25	4.80

### When Cleaning Concrete, Bricks, Paths and Drives:

Pour the solution onto the stained areas (one at a time) and scrub with a brush. Leave for around 20 minutes and thoroughly wash with clean cold water. Repeat as necessary. (Take care when washing near plants and grass areas, Caustic Soda will damage plants).

# Overground Drain Clearing Tools

## Easi Drain Rotary Operated Drain Clearing Kit

The Easi Drain drain cleaning and un-blocking system is a new and novel method of dealing with blockages and obstructions in drains. Easi Drain is designed to be used primarily by residential and light commercial operators. The unique rod system, which incorporates 10mm diameter POM rods, has demonstrated that both the Flail Head and the various tools have been able to pass through two connected 90 degree Elbows in a 100mm (4") drain pipe - a procedure not possible with conventional cane or polypropylene rods!

### Package Contents

Stock Code List Price €  
EDRAIN 99.50

This product is supplied in a sturdy 110mm diameter tube, 1.2m tall.

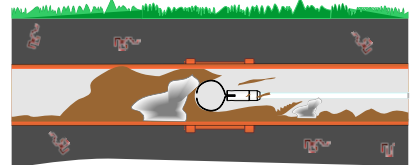

### 10 x 1M Rods

Smart Rod utilizes a rotating head fitted with nylon flails to break up any encrusted deposits. The flail head is advanced along the drain pipe with sections of flexible POM rods. It is rotated while being advanced with the use of a battery operated drill gun (supplied by the operator). The flexible POM rods that are used to advance the heads allow the system to operate around tight right angle bends and even "S" bends which would not be possible for conventional drain clearing rods. Once connected to a POM rod, it is inserted into the drain pipe and the other end of the rod is "snapped" onto the drill adaptor. As the flail advances, more rods are applied in the same way. The flails have a diameter of 300mm (12") and are designed to distort as the head is pushed into the drain pipe. Because the drain rod joints are not secured by a screw thread, the drill can be set to run in either the forward or reverse direction without the possibility of the rods separating. This can be an advantage where stubborn blockages are encountered.

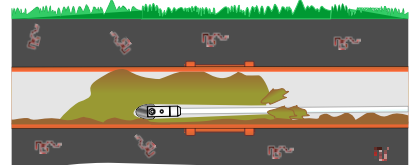

### Features and Benefits

- Suitable for Professional and DIY use
- 10 metres long kit (30 Feet)
- Easily break up any debris which will be push along the pipe until it can be removed
- Easy to connect rods together
- It comes with a flail head, plunger head, bulb auger head, grease cutter, "C" cutter head, side cutter head, drill adaptor and hand grip
- Flexible, yet very strong - rods are made from 10mm diameter solid POM
- May be used over and over again

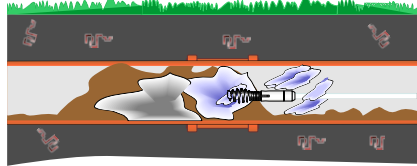

The **Side Cutter** Head which features a 47mm wide toothed "claw" which when rotated will loosen fabric materials or heavy paper blockages which can then be withdrawn or pushed on to the drain cleaning point.

The **Grease Cutter** which features a heavy 33mm wide blade which when rotated is designed to loosen, push through and remove stubborn grease deposits.

The **Bulb Auger** Head which features a 27mm diameter pointed spiral head which when rotated will impale fabric material or heavy paper blockages which can then be withdrawn or pushed on to the drain cleaning point.

The **"C" Cutter** Head which features a heavy 33mm wide blade which when rotated is designed to loosen and remove more stubborn deposits, after which the Flail or Plunger Head should be more effective.
