## PTFE Tape (Gas Approved)

Stock Code	Description	Package Type	Width cm	Height cm	List Price €
EPPERGT	5m Tape For Gas	Card	9	12	2.40

PTFE (Polytetrafluoroethylene) has been around for many years, but only as a jointing tape for the last two decades or so. Its very low coefficient of friction and melting point of about 320°C, makes it an ideal substitute for hemp and jointing paste. Apply the tape winding it around the thread in the opposite direction to that used to insert the thread into the fitting. Again, experience will determine how much tape to apply, which should be sufficient to be able to screw the thread into the female fitting with a wrench or spanner such that it only really starts to become tight as most of the thread is engaged in the fitting.

## P.T.F.E. Ribbon for Gas

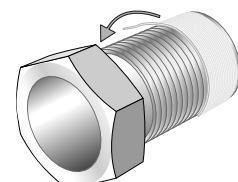

Stock Code	Description	Package Type	Width cm	Height cm	List Price €
EPHTTITE	150M Can Threadite Ribbon for Gas	Card	12	15.5	8.20

### Instructions

Start at the exposed end of the thread and wind the Ribbon in the direction of the thread, whilst overlapping frequently.

Use sufficient to be able to screw the thread into the female fitting with a wrench or spanner, such that it only starts to become tight as most of the thread engages in the fitting.

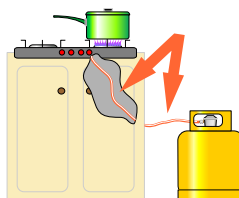

## 1.2m Orange hose (8mm internal diameter)

# Gas Cooker Hoses and Bayonet Sockets

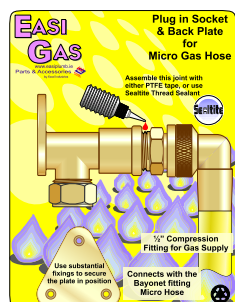

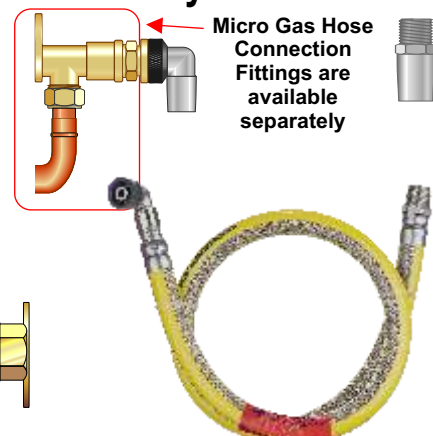

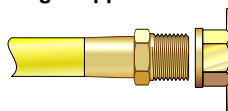

## Micro Cooker Hose for Natural Gas & LPG

Stock Code	Description
EG1UDMGH	1M x 1/2" Micro Cooker Hose for NG & LPG

Package Type	Width cm	Height cm	List Price €
Card	25.5	37	31.90

This end of the hose connects to the 1/2" BSP thread on the gas appliance

## Plug in Socket & Back Plate for Micro Gas Hose

Stock Code	Description
EPMPIS	Plug in Socket & Back Plate for Micro gas Hose

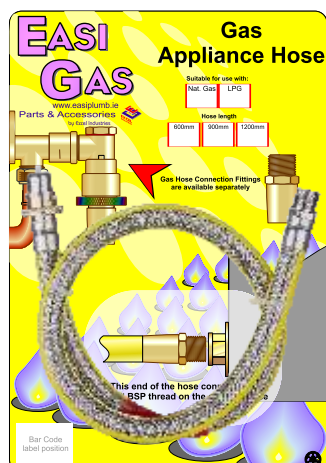

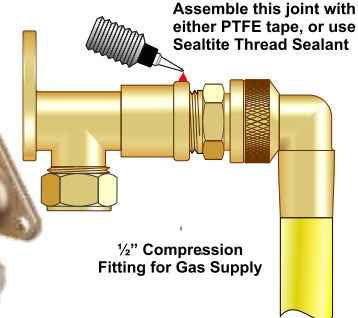

Package Type	Width cm	Height cm	List Price €
Card	12	15.5	15.76

Connects with the Bayonet fitting Micro Hose

Use substantial fixings to secure the plate in position

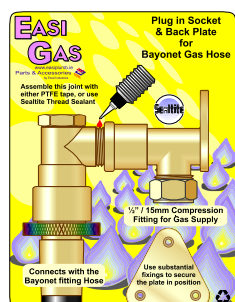

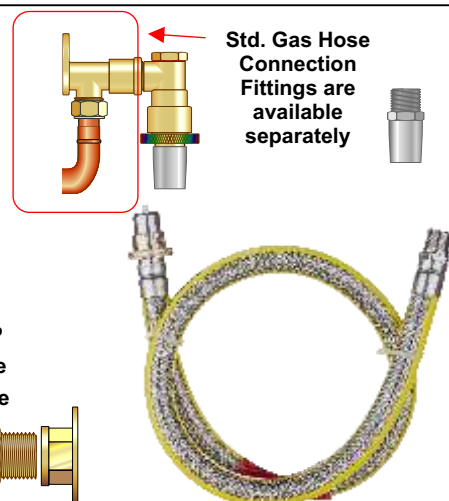

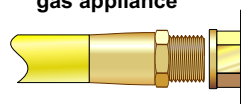

## Standard Cooker Hose for Natural Gas LPG

Stock Code	Description
EG1UDGH	1M x 1/2" Standard Cooker Hose for NG & LPG

Package Type	Width cm	Height cm	List Price €
Card	25.5	37	30.28

This end of the hose connects to the 1/2" BSP thread on the gas appliance

## Plug in Socket & Back Plate for Bayonet Gas Hose

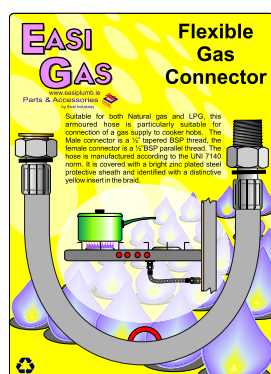

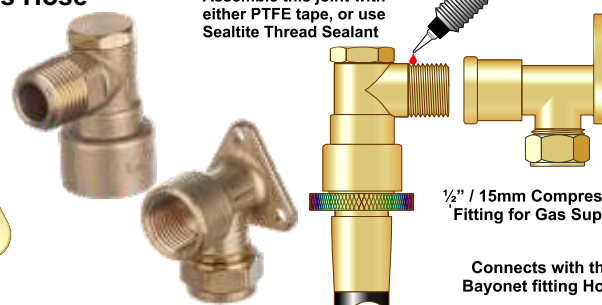

Stock Code	Description
EPCHB	Plug In Socket & Back Plate for Bayonet Gas Hose

Package Type	Width cm	Height cm	List Price €
Card	12	15.5	17.42

Use substantial fixings to secure the plate in position

Assemble this joint with either PTFE tape, or use Sealite Thread Sealant

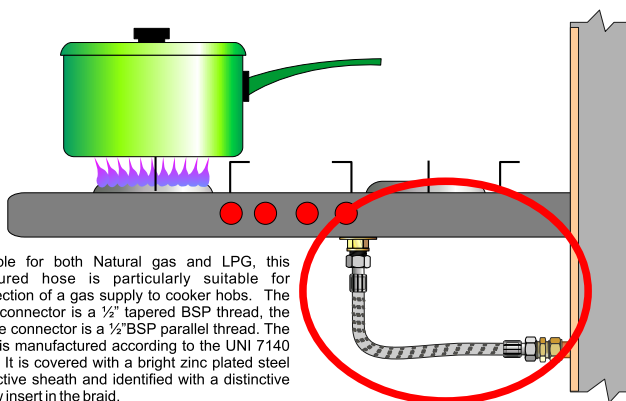

## Flexible Gas Connector

Stock Code	Description
EP30FGH	1/2" M x 1/2" F Flexible Gas Connector

Package Type	Width cm	Height cm	List Price €
Card	18	25.5	8.94

Suitable for both Natural gas and LPG, this armoured hose is particularly suitable for connection of a gas supply to cooker hobs. The Male connector is a 1/2" tapered BSP thread, the female connector is a 1/2" BSP parallel thread. The hose is manufactured according to the UNI 7140 norm. It is covered with a bright zinc plated steel protective sheath and identified with a distinctive yellow insert in the braid.

## Jumbo Gas Regulator

**Stock Code** **Description**

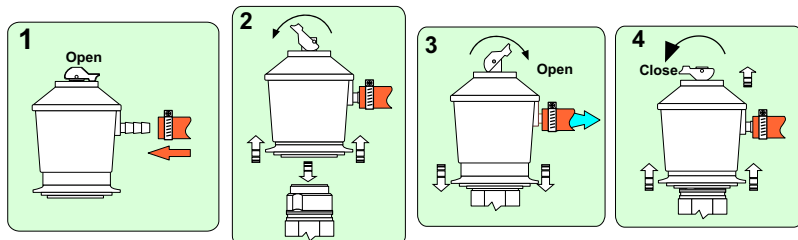

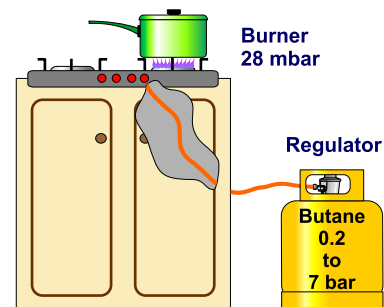

EPJGR Jumbo Regulator  
(2Kg @ 29mb)

Package Type	Width cm	Height cm	List Price €
Card	18	25.5	17.80

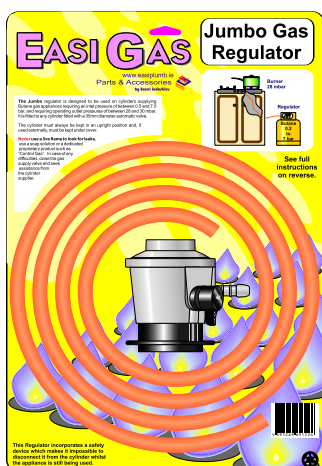

For use with Butane Gas

Capacity: 2kg per hour: Temperature limitations: 0 to 50°C. Warning: No attempt should be made to adjust the preset outlet pressure of the Regulator - (29mbar).

The Jumbo regulator is designed to be used on cylinders supplying Butane gas appliances requiring an inlet pressure of between 0.5 and 7.5 bar, and requiring operating outlet pressures of between 28 and 30 mbar. It is fitted to any cylinder fitted with a 35mm diameter automatic valve.

The cylinder must always be kept in an upright position and, if used externally, must be kept under cover.

## Jumbo Regulator Kit

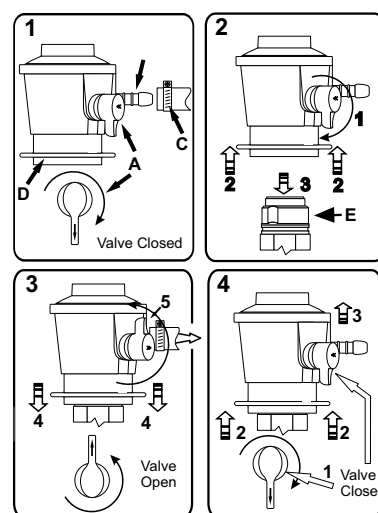

**Stock Code** **Description**

EPJGRK Includes 1.2m Hose & Clips

Package Type	Width cm	Height cm	List Price €
Card	25.5	37	25.90

The Jumbo regulator is designed to be used on cylinders supplying Butane gas appliances requiring an inlet pressure of between 0.5 and 7.5 bar, and requiring operating outlet pressures of between 28 and 30 mbar. It is fitted to any cylinder fitted with a 35mm diameter automatic valve. The cylinder must always be kept in an upright position and, if used externally, must be kept under cover.

## Low Pressure Gas Regulator

**Stock Code** **Description**

EP1KGRP Single Regulator  
(1.5 Kg @ 37mb)

Package Type	Width cm	Height cm	List Price €
Card	12	15.5	16.70

For use with Propane Gas

1.5 Kg/Hour  
37mbar  
Standard  
Regulator

Minimum inlet pressure: 1 bar  
Maximum inlet pressure: 16 bar

## Low Pressure Clip on LP Gas Regulator with Safety Interlock

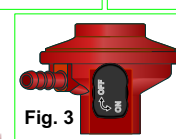

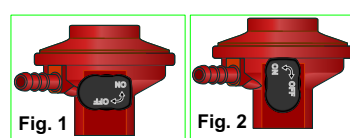

**Stock Code** **Description**

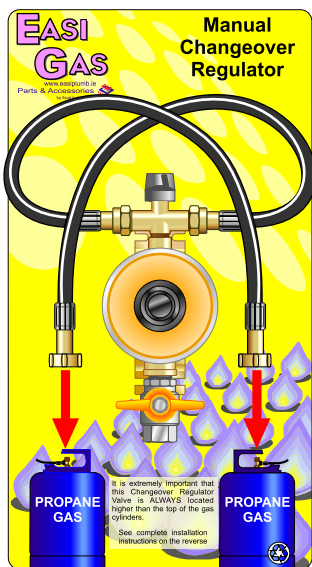

EP27REG 27mm Clip on Regulator  
(1.5Kg @ 37mb)

Package Type	Width cm	Height cm	List Price €
Card	18	25.5	14.86

This Valve is a low pressure regulator with a set outlet pressure of 37mbar and capacity of 1.5kg/hr conforming to European standard BS EN 12864. No attempt should be made to adjust this setting. It must only be used with propane gas. This regulator is designed to only fit on a 27mm 'Clip On' type cylinder valve. If you have any problems connecting the regulator to your cylinder, contact your local gas supplier at once.

## Manual Changeover Regulator

Stock Code	Description		
EP4KGMR	Manual Changeover Regulator Kit (4Kg @ 37mb)		
Package Type	Width cm	Height cm	List Price €
Card	25.5	47	166.88

It is very important that all connected appliances are turned off before the gas supply is switched over to the reserve cylinder.

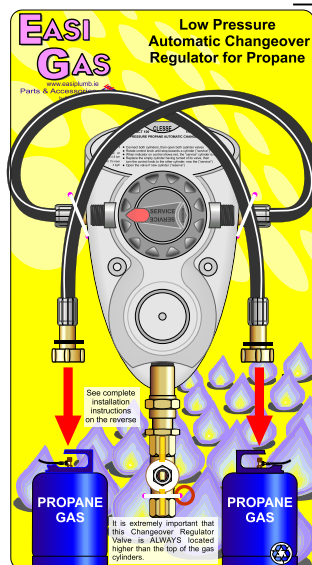

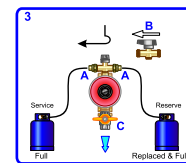

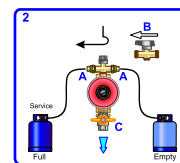

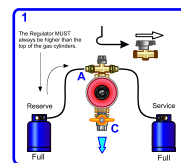

Spare Pigtails are separately available

For use with Propane Gas

### Manual Changeover Regulator

4Kg/Hour 37mbar Manual Changeover Regulator c/w Isolation Valve, Wall Bracket and Pig Tails

## Low Pressure Automatic Changeover Regulator for Propane

Stock Code	Description		
EP4KGAR	Automatic Changeover Regulator Kit (4Kg @ 37mb)		
Package Type	Width cm	Height cm	List Price €
Card	25.5	47	173.38

It is extremely important that this Changeover Regulator Valve is ALWAYS located higher than the top of the gas cylinders.

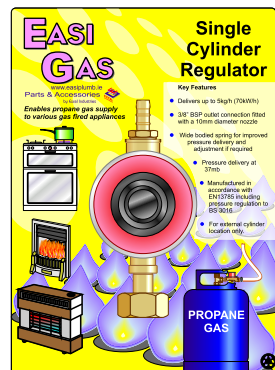

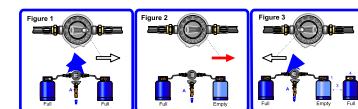

### 4Kg/Hour 37mbar Automatic Changeover Regulator c/w Isolation Valve, Wall Bracket and Pig Tails

#### How an Automatic Changeover Regulator works

The automatic change over ensures that the supply from a propane source is continuous by changing the supply from a second cylinder once the first cylinder is empty. A visual signal is located either on the pipe within the cylinder storage area, or on the automatic change over regulator. If the signal is white, supply is drawn off the first cylinder. If the signal is red, supply is being drawn off the reserve cylinder.

The switch over is automatic, - the only manual part of the operation is to rotate the regulator head as defined in instruction 5 below.

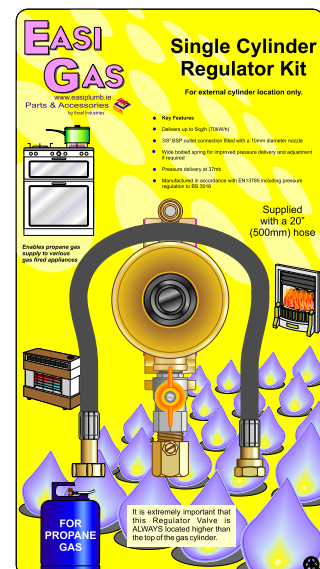

## Single Cylinder Regulator

Stock Code	Description		
EPBP1803	Single Regulator (5Kg @ 37mb)		
Package Type	Width cm	Height cm	List Price €
Card	18	25.5	35.84

- Delivers up to 5kg/h (70kW/h)
- 3/8" BSP outlet connection fitted with a 10mm diameter nozzle
- Wide bodied spring for improved pressure delivery and adjustment if required
- Pressure delivery at 37mb
- Manufactured in accordance with EN13785 including pressure regulation to BS 3016
- For external cylinder location only.

## Single Cylinder Regulator Kit For Use with Propane Gas

Stock Code	Description	
EP766P	5Kg/Hour 37mbar Adjustable Single Cylinder Regulator c/w Isolation Valve, Wall Bracket and 20" Hose/Pig Tail	

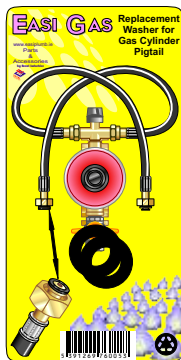

#### Key Features

- Delivers up to 5kg/h (70kW/h)
- 3/8" BSP outlet connection fitted with a pressure test point
- Wide bodied spring for improved pressure delivery and adjustment if required
- Pressure delivery at 37mb
- Manufactured in accordance with En13785 including pressure regulation to BS 3016

#### FLAME PATTERN

Stock Code	Package Type	Width cm	Height cm	List Price €
CADGB2070H	Box	17	18.5	23.56

- Stable rugged flame (up to 1370°C) ideal for most DIY jobs.
- Rapid 1-minute warm up – use at any angle.
- Ideal for general DIY, paint stripping, plumbing and soldering.
- Simple and safe to use with precise flame control.
- Stability base included.
- GoSystem accessory rods and paint burners sold separately
- Safety checked and test burned.

### Propane/Butane Refill

Stock Code	Size
CAD2289	277g

Package Type	Width cm	Height cm	List Price €
Loose	6.5	20	5.76

- Fitted with standard type threaded self sealing safety valve complying with EN417
- Higher Propane content for even more heat and power and for use at lower air temperatures
- Effective to -20 deg C
- Non- refillable
- Stable mixed gas
